HAS IT PRINTED IN THE  
CORRECT SCALE?

To verify that template has printed correctly, grab a ruler and measure the scale, it must be 5cm long.

1. Fold sheet on the dotted line drawn on the template.
2. Place the folded area against the skirting and flatly position your foot on top of the template with your heel along the dotted line.
3. Check which **Zarku** size your foot corresponds to. If you're between two sizes, choose the highest.
4. If you don't have a printer, place your foot on the top of a sheet of paper with your heel against the skirting and mark the end of it with a pencil, then measure with a ruler.
5. Place your order.

welcome  
& ride your life!
